DETAILED ACTION

Reason For Allowance

1. Following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 18, which include electrophoretic cell being individually sealed with a polymeric sealing layer which is contact with and forms a contiguous film on the fluid and contact with the side surface of the side walls of the cells above the fluid and with the top surface of side walls being at least $0.01\mu\text{m}$ above the top surface of the fluid.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
